

Vintage Romance

My inspiration for this project was based on the Kravet fabric “Bizarre Silk Leopard Jacquard” which can be described as “Two pieces of light pinkish-tan silk cannellé brocaded with a serpentine band of red-brown with faux dark brown chenille leopard spots. Twined in reverse serpentine with white ostrich feathers accented with blue & supporting clusters of red & brown roses with strawberries & forget-me-nots” (Kravet). I was inspired by the vintage quality and colors of this fabric, as it reminded me of a playful romance. When designing these woven textiles, I kept the feeling of ‘lightness’ in mind and explored pinks, browns, and golds to give the feeling of warmth and beauty. I wanted my whimsical and dimensional pieces to give a vintage feeling, yet new and romantic.
